Interagency Bank Merger Act Application—FR 2070

An organization or a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

General Information and Instructions

Preparation and Use

This application is used to effect a merger transaction under section 18(c) of the Federal Deposit Insurance Act (FDIA), as amended (12 U.S.C. § 1828(c)), and for national banks using sources of merger authority, such as 12 U.S.C. §§ 215, 215a. "Merger transaction" includes a merger, consolidation, assumption of deposit liabilities, and certain asset transfers between or among two or more institutions. An application is required for merger transactions between or among affiliated institutions (affiliate transactions) as well as for merger transactions between or among nonaffiliated institutions.

An affiliate transaction refers to a merger transaction or other business combination (including a purchase and assumption) between institutions that are commonly controlled (for example, between a depository institution and an affiliated interim institution). Applicants proposing affiliate transactions are not required to complete questions 16 through 18 of this form.

All questions must be answered with complete and accurate information that is subject to verification. If the answer is "none," "not applicable," "not available," or "unknown," so state. Answers of "not available" or "unknown" should be explained.

The questions in the application are not intended to limit the applicant's presentation, nor are the questions intended to duplicate information supplied on another form or in an exhibit. A cross-reference to the information is acceptable. *Any cross-reference must be made to a specific location in the documents, so the information can be found easily.* Supporting information for all relevant factors, setting forth the basis for the applicant's conclusions, should accompany the application. The responsible regulatory agency may request additional information.

Applications involving insured depository institutions must be submitted to the responsible regulatory agency of the insured depository institution that is the acquiring, assuming, or resulting institution (resultant institution). All questions about preparing the merger application should be directed to that agency, along with the information requested in the application and other information requested by the responsible agency. In addition, all applications involving a noninsured bank or institution must be submitted to the FDIC.

For additional information regarding the processing procedures and guidelines and any supplemental information that may be required, please refer to the responsible regulatory agency's procedural guidelines (for example, the OCC's Rules and Regulations (12 C.F.R. Part 5), the *Comptroller's Licensing Manual*, the FDIC's Rules and Regulations (12 C.F.R. Part 303) and Statement of Policy on Bank Merger Transactions) and other relevant policy statements. Contact the responsible regulatory agency directly for specific instruction, or visit its website at www.fdic.gov, www.occ.treas.gov, and www.federalreserve.gov.

Interim Charters and Federal Deposit Insurance

An interim state or federal depository institution charter may be used to facilitate a merger transaction. An interim institution is one that does not operate independently but exists, usually for a very short time, solely as a vehicle to accomplish a merger transaction (for example, to facilitate the acquisition of 100 percent of the voting shares of an existing depository institution). The processing procedures and guidelines for chartering an interim institution may be found in the guidelines of the appropriate responsible regulatory agency.

Applicants should consult the FDIC's Rules and Regulations (12 C.F.R. § 303.62(b)(2)) or contact the FDIC directly to discuss relevant deposit insurance requirements. An application for deposit insurance is not required in connection with a merger transaction (other than a purchase and assumption) between a federally chartered interim institution and an existing FDIC-insured depository institution, including those instances in which the resulting institution is to operate under the charter of the federal interim institution. However, an application for deposit insurance is required if a state-chartered interim bank or savings association is organized solely to facilitate a merger transaction which will be reviewed by a federal banking agency other than the FDIC. Merger transactions (including a purchase and assumption) between an FDIC-insured institution and a non-FDIC-insured institution are subject to FDIC approval under section 18(c)(1) of the FDIA (12 U.S.C. § 1828(c)(1)).

In making its determination to grant deposit insurance under section 5 (a) of the FDIA (12 U.S.C. § 1815(a)), the FDIC will consider the factors enumerated in section 6 of the FDIA (12 U.S.C. § 1816).

General Information and Instructions—Continued

If applying for deposit insurance under section 5(a), check the appropriate boxes on the top of the application form and include with this application any additional relevant information.

Establishment of Branches and Branch Closings

This Interagency Bank Merger Act Application will be deemed to constitute an application to operate the target institution's main office and branches as branches of the applicant pursuant to section 9 of the Federal Reserve Act (12 U.S.C. § 321) for state member banks, section 18(d) of the FDIA (12 U.S.C. § 1828(d)) for state nonmember insured banks, 12 U.S.C. § 36 for national banks, and 12 CFR 5.31 for federal savings associations.

Refer to the Interagency Policy Statement on Branch Closings and applicable law for branch closure notice requirements under section 42 of the FDIA (12 U.S.C. § 1831r-1) if a branch is closed as a result of a merger transaction.

Notice of Publication

An applicant must publish notice of the proposed acquisition in a newspaper of general circulation in the community or communities in which the main office of each of the parties to the transaction is located (12 U.S.C. § 1828(c)(3)), or if there is no such newspaper in any such community, then in a newspaper of general circulation published nearest to the community. A copy of the affidavit(s) of publication should be submitted to the responsible regulatory agency. Contact the responsible regulatory agency for the specific requirements of the notice of publication.

Compliance

An applicant is expected to comply with all representations and commitments made in the application.

Transactions subject to the Hart-Scott-Rodino Antitrust Improvements Act of 1976 (15 U.S.C. § 18a), which applies to certain very large transactions, require a pre-merger filing with the Federal Trade Commission and the Department of Justice. Refer to the Federal Trade Commission's website for specific details (www.ftc.gov).

Electronic Submission

In addition to an original application and the appropriate number of signed copies, the responsible regulatory agencies request that the applicant submit an electronic copy of the information in the application, especially of the financial projections. Submission of an electronic copy is voluntary. It will be used only for internal review and processing, and those portions granted confidential treatment will not be released to the public. For electronic submissions, contact the responsible regulatory agency for instructions and information about secure transmission of confidential material.

For the Board, the applicant must submit the information required by this form to the appropriate Reserve Bank. Applicants are strongly encouraged to submit their applications electronically through the Federal Reserve System's web-based application FedEZFile. Additional information on FedEZFile may be found on the Board's public website. Alternative formats to this form, if used, must provide all requested information.

For the Office of the Comptroller of the Currency (OCC), applicants are strongly encouraged to submit their applications electronically through the Office of the Comptroller of the Currency's web-based application CATS (Central Application Tracking System). Additional information on CATS may be found on the OCC's public website. Applicants may contact the appropriate Licensing office for information on alternative electronic submission, including instructions and information about secure transmission of confidential material.

For the Federal Deposit Insurance Corporation (FDIC), the applicant must submit the information required by this form to the appropriate Regional Office (<https://www.fdic.gov/about/organization-directory-regional-offices>.) The applicant has the option to file the application electronically using FDICconnect. Applicants should refer to the FDIC's Bank Supervision: Applications (<https://www.fdic.gov/forms/bank-supervision-applications>) webpage for instructions on filing electronically using FDICconnect.

Confidentiality

Any applicant desiring confidential treatment of specific portions of the application must submit a request in writing with the application. The request must discuss the justification for the requested treatment. The applicant's reasons for requesting confidentiality should specifically demonstrate the harm (for example, loss of competitive position, invasion of privacy) that would result from public release of information under the Freedom of Information Act (5 U.S.C. § 552). Information for which confidential treatment is requested should be: (1) specifically identified in the public portion of the application (by reference to the confidential section); (2) separately bound; and (3) labeled "Confidential." The applicant should follow the same procedure when requesting confidential treatment for the subsequent filing of supplemental information to the application.

The applicant should contact the responsible regulatory agency for specific instructions regarding requests for confidential treatment. The responsible regulatory agency will determine whether the information will be treated as confidential and will advise the applicant of any decision to make available to the public information labeled as "Confidential."

Supplement to Interagency Bank Merger Act Application—Continued

Federal Deposit Insurance Corporation

All FDIC applicants should provide the following supplemental information with their application:

22. This section supplements question 16 of the Interagency Bank Merger Act Application for transactions between nonaffiliated parties. Additional guidance relating to the FDIC's consideration of the competitive factors in a proposed merger transaction is contained in the FDIC's Rules and Regulations (12 C.F.R. § 303 Subpart D) and Statement of Policy on Bank Merger Transactions, which may be found at www.fdic.gov/regulations/laws/rules/index.html.

I. Delineation of the relevant geographic market(s).

The relevant geographic market includes the areas in which the offices to be acquired are located and from which those offices derive the predominant portion of their loans, deposits, or other business. The relevant geographic market also includes the areas where existing and potential customers impacted by the proposed merger transaction may practically turn for alternative sources of banking services.

- a. Prepare schedules for the applicant institution and target institution showing the total number of accounts and total dollar volume of deposits³ for each municipality or census tract, where applicable, according to the recorded address of the depositor (do not submit supporting data). Small amounts may be aggregated and identified as "other." *If the applicant institution is a multi-office institution, applicant institution deposit information should be provided only for those offices within or proximate to the area(s) described below under paragraph (b).*
- b. Identify those areas where existing and potential customers of the offices to be acquired may practically turn for alternative sources of banking services. If consideration of the availability of such alternative banking services results in a market area considerably different from that indicated by the sources of deposits, discuss and provide necessary supporting information.
- c. Using the information collected in paragraphs (a) and (b), provide a narrative description of the delineated relevant geographic market(s).
- d. Provide any additional information necessary to support the delineated relevant geographic market(s). Supporting information may include relevant demographic information, locations of major employers, retail trade statistics, and/or information on traffic patterns. *Applicants should consult with the applicable FDIC Regional Office in determining whether additional information is necessary.*

II. Competition in the relevant geographic market(s).

- a. Prepare a schedule of participating and competing banking institutions' offices, divided into three sections:
 - (i) Applicant institution offices within or proximate to the relevant geographic market(s);
 - (ii) Target institution offices within or proximate to the relevant geographic market(s); and
 - (iii) Competitor banking offices located or competing within the delineated relevant geographic market(s).

To the extent known, also include banking offices approved but not yet open. The following presentation format is suggested:

Name and Location of Banking Office	Total Deposits	Distance and Direction From Nearest Office	
		Applicant Institution	Target Institution

- b. For each office listed in paragraph (a), provide the street address; total deposits as reported in the most recent FDIC Summary of Deposits Data Book (www7.fdic.gov/sod/index.asp); and distance and general direction from the nearest office of the applicant and target institution. *In cases where the delineated relevant geographic market includes a significant portion of a larger metropolitan area, provide only a listing of financial institutions and the aggregate total deposits of all offices operated by each within the delineated relevant geographic market(s).*
- c. Discuss the extent and intensity of competition in the delineated relevant geographic market(s) provided by nonbank institutions, such as other depository institutions (for example, credit unions) and nondepository institutions (for example, finance companies, or government agencies). For those institutions regarded as competing in the delineated relevant geographic market(s), provide name, address, and services supplied.

3. In most cases, total deposits will serve as an adequate proxy for the overall share of banking business in the relevant geographic market area; however, other analytical proxies may be appropriate in certain cases (for example, a merger transaction involving trust companies).
